

Enterprise Procurement System (EPS) — Product Backlog

Planned Sprint	Actual Sprint	US ID	User Story Description	MOSCOW	Dependency	Assignee	Status
S1	S1	US001	As a Development Team, I want to set up the project environment (React, Spring Boot, MySQL) so that development can begin on a stable foundation.	MUST HAVE	No Dependency	Abhishek	3- Completed
S1	S1	US002	As a Project Team, I want to finalize requirements and features so that the scope of the Enterprise Procurement System is clearly defined.	MUST HAVE	No Dependency	Team	3- Completed
S1	S1	US003	As a Business Analyst, I want to design the procurement workflow so that the approval and purchase process is clearly mapped.	MUST HAVE	No Dependency	Sathya Sri	3- Completed
S1	S1	US004	As a Database Designer, I want to design the database schema and ER diagram so that all procurement entities and relationships are properly modeled.	MUST HAVE	DBdiagram.io	Praveen	3- Completed
S1	S1	US005	As a Technical Lead, I want to select the technology stack so that the system is built on suitable, scalable technologies.	MUST HAVE	No Dependency	Vishnu	3- Completed
S1	S1	US006	As a Security Architect, I want to plan the JWT and role-based access control architecture so that the system is secure from the ground up.	MUST HAVE	No Dependency	Praveen	3- Completed
S1	S1	US007	As a Backend Developer, I want to plan the REST API structure so that the frontend and backend can communicate consistently.	MUST HAVE	Maven / Spring MVC	Sathya Sri	3- Completed
S1	S1	US008	As a Team, I want to prepare Milestone 1 documentation so that design and architecture decisions are recorded.	SHOULD HAVE	No Dependency	Kalyani	3- Completed
S1	S1	US009	As a User, I want to register and log in securely so that only authenticated users can access the system.	MUST HAVE	Spring Security	Praveen	3- Completed
S1	S1	US010	As an Admin, I want to register suppliers so that supplier information can be maintained.	MUST HAVE	No Dependency	Varnika Devi	3- Completed
S1	S1	US011	As an Admin, I want to manage employee details so that employees can access the system.	MUST HAVE	No Dependency	Imdad	3- Completed
S2	S2	US012	As an Admin, I want to verify supplier compliance documents before approval so that only verified suppliers are onboarded.	MUST HAVE	Supplier Registration	Varnika Devi	3- Completed
S2	S2	US013	As a Manager, I want to configure the approval hierarchy for purchase requests so that requests are routed to the correct approver.	MUST HAVE	Employee Details	Imdad	3- Completed
S2	S2	US014	As an Employee, I want to raise purchase requests so that required items can be procured.	MUST HAVE	Approval Hierarchy	Team	3- Completed
S2	S2	US015	As a Procurement Officer, I want to manage supplier records (CRUD) so that supplier data stays accurate and up to date.	MUST HAVE	Supplier Registration	Sathya Sri	3- Completed

Enterprise Procurement System (EPS) — Product Backlog

Planned Sprint	Actual Sprint	US ID	User Story Description	MOSCOW	Dependency	Assignee	Status
S2	S2	US016	As an Admin, I want to manage products, departments and categories so that procurement requests can be classified correctly.	MUST HAVE	No Dependency	Praveen	3- Completed
S2	S2	US017	As a Backend Developer, I want standardized DTOs and a global exception handler so that API responses stay consistent and errors are handled gracefully.	MUST HAVE	No Dependency	Backend Team	3- Completed
S2	S2	US018	As an Admin, I want to manage supplier compliance documents so that supplier credentials are verified and stored securely.	MUST HAVE	Clouinary API	Team	3- Completed
S3	S3	US019	As a Procurement Officer, I want to generate purchase orders from approved requisitions so that approved requests move into procurement.	MUST HAVE	Purchase Request	Imdad	3- Completed
S3	S3	US020	As an Admin, I want to track supplier performance through ratings and reviews so that supplier quality can be monitored.	SHOULD HAVE	Supplier Registration	Varnika Devi	3- Completed
S3	S3	US021	As a Manager, I want to monitor requisition status so that I can track procurement progress in real time.	MUST HAVE	No Dependency	Team	3- Completed
S3	S3	US022	As a Procurement Officer, I want to manage the full purchase order lifecycle so that order progress is tracked end-to-end.	MUST HAVE	Purchase Order Generation	Team	3- Completed
S3	S3	US023	As a Manager, I want a procurement tracking dashboard so that I get real-time visibility into procurement activities.	MUST HAVE	No Dependency	Team	3- Completed
S3	S3	US024	As a Manager, I want procurement reporting functionality so that spend and performance data can be analyzed.	MUST HAVE	No Dependency	Abhishek	3- Completed
S4	S4	US025	As a Finance Officer, I want to process payments after goods receipt confirmation so that payments are released only for delivered goods.	MUST HAVE	Purchase Request	Imdad	3- Completed
S4	S4	US026	As a Manager, I want to view procurement reports and dashboards so that I can make informed purchasing decisions.	COULD HAVE	All Modules	Varnika Devi	3- Completed
S4	S4	US027	As an Admin, I want to monitor the complete procurement workflow so that bottlenecks can be identified early.	SHOULD HAVE	All Modules	Imdad	3- Completed
S4	S4	US028	As an Admin, I want role-based security controls so that users can access only the features relevant to their role.	MUST HAVE	Employee Details	Varnika Devi	3- Completed
S4	S4	US029	As an Admin, I want audit logging and monitoring so that system activities can be tracked for compliance.	MUST HAVE	All Modules	Imdad	3- Completed
S4	S4	US030	As a Procurement Officer, I want REST API integration so that the system can communicate with other enterprise applications.	MUST HAVE	All Modules	Varnika Devi	3- Completed
S4	S4	US031	As a DevOps Engineer, I want to deploy and test the procurement system so that it is ready for enterprise use.	MUST HAVE	API Integration	Imdad	3- Completed

Enterprise Procurement System (EPS) — Product Backlog

Planned Sprint	Actual Sprint	US ID	User Story Description	MOSCOW	Dependency	Assignee	Status
S4	S4	US032	As a Performance Engineer, I want to optimize system performance so that the application responds efficiently under load.	SHOULD HAVE	Deployment	Varnika Devi	3- Completed
S4	S4	US033	As a Team, I want comprehensive project documentation so that the system can be understood and maintained.	SHOULD HAVE	All Modules	Varnika Devi	3- Completed
S4	S4	US034	As an Admin, I want to generate and store goods receipt documents so that delivery confirmations are recorded and retrievable.	SHOULD HAVE	Cloudinary API	Sathya Sri	3- Completed
S4	S4	US035	As a User, I want an in-app messaging feature so that stakeholders can communicate within the system.	SHOULD HAVE	No Dependency	Team	3- Completed
S4	S4	US036	As a Manager, I want to rate supplier performance after each delivery so that supplier ratings stay accurate.	MUST HAVE	No Dependency	Sathya Sri	3- Completed
S4	S4	US037	As a Frontend Developer, I want global Axios interceptors for JWT handling so that authentication tokens are attached and refreshed automatically.	MUST HAVE	No Dependency	Abhishek	3- Completed
S4	S4	US038	As a Manager, I want a reusable dashboard KPI card component so that key metrics are displayed consistently across the dashboard.	MUST HAVE	Tailwind CSS	Abhishek	3- Completed
S4	S4	US039	As an Admin, I want to activate or deactivate user accounts so that access can be controlled without deleting records.	MUST HAVE	userService.js	Abhishek	3- Completed
S4	S4	US040	As a Manager, I want backend filtering support for supplier reports so that reports can be generated for specific criteria.	MUST HAVE	Spring Data JPA	Abhishek	3- Completed
S4	S4	US041	As a Manager, I want the supplier report page connected to live backend data so that reports always reflect current information.	MUST HAVE	No Dependency	Abhishek	3- Completed
S4	S4	US042	As a User, I want loading skeletons and spinners during API calls so that the interface feels responsive while data loads.	SHOULD HAVE	No Dependency	Abhishek	3- Completed
S4	S4	US043	As a Frontend Developer, I want a global context for caching authenticated user data so that user information is available across components without repeated calls.	MUST HAVE	authService.js	Abhishek	3- Completed
S4	S4	US044	As a User, I want a dark mode toggle so that I can use the application comfortably in different lighting conditions.	COULD HAVE	Tailwind CSS	Abhishek	3- Completed
S4	S4	US045	As a Manager, I want a 60-second timer to reset approve/reject decisions so that accidental actions can be reversed in time.	SHOULD HAVE	No Dependency	Sathya Sri	3- Completed
